

# PICS Society

## EDUCATIONAL OBJECTIVES

**PICS Symposium 2025** will provide physicians, nurses & technologists the opportunity to learn about many aspects of pediatric and adult congenital and structural interventional cardiology.

### Learning Objectives

**Upon completion of your participation in this educational activity you intend to incorporate the following into your practice of medicine:**

- Utilize new interventional technologies and current strategies developed for the management of children and adults with congenital and structural heart disease.
- Incorporate into your practice the techniques for the proper placement of percutaneous valves, stents and devices for occlusion of septal defects
- Initiate advances in diagnosis, evaluation and therapies for children and adults with congenital and heart disease.
- Identify the important factors which affect the long-term outcomes and quality of life in children and adults with congenital heart disease.
- Incorporate alternative management strategies to transcatheter management for patients with congenital and structural heart defects.
- Utilize new clinical research advances in the care of children and adults with congenital heart disease.
- Incorporate demonstrated practical techniques related to interventional cardiac therapies in patients with structural and congenital heart disease.
- Access the results of new research, and assess their potential applications to clinical practice.
- Improve basic knowledge and skills relevant to clinical practice.
- Assess the potential of technological innovations and advances to enhance clinical practice and problem solving.
